More Supervisors Needed For Recreation and Playground Work
 Two caflods, 17 in all, of happy youngsters were taken on a trip to the Torrance beach last Saturday as one of the diversions provided by the recreation director, Miss Josephine Odell, in charge of playground work here. The children were accompanied by adult supervisors, so that all were well taken care of and brought home safely. The great need at the playground centers just now is for more workers. Those who are giving their services are now putting in many more hours than they should, and Miss Odell would like to hear from Torrance people who will come down to the recreation center and offer their assistance in handling the playground work. Many children are taking advantage of the recreation offered, but there are still some who are not attending, but who spend their time playing in the streets. Mothers should see to it that the children attend the playgrounds where they can be looked after by adults and kept busy at wholesome amusements. Work on the playground at Madrid and Dominguez streets has started. Playground equipment will be set up and this center will soon be in use. Miss Knorr will have an assistant next Saturday in the story-telling hour which has been fixed at 10 to 11 at the Chamber of Commerce rooms. This feature will be unusually interesting, and all youngsters are invited to come to hear the stories. Harmonica bands have been started by Mr. Paul at the Pueblo and at Waleria. A great deal of interest is developing in these musical organizations.

Lomita Masonic Lodge Sponsors Public Schools Week Program

HERE and THERE with the GIRL SCOUTS
 By EVA MIZE

Elizabeth Hunter won the award for March and was also awarded a Girl Scout hand book. During the business meeting plans were made to go to the city park for the next meeting to cook our dinner. This will help the girls to pass the nature study event in the second class test. Just before vacation the troop went to the Anderson Memorial plunge at San Pedro. Mrs. Tiffany helped Captain Miller with the transportation.

Request Old Age Pension Executive Be Not Transferred
 A request that Mrs. Mary McCormick be retained in charge of the administration of old age pensions in the Inglewood-Torrance district was ordered dispatched to the proper authorities by the Torrance city council Tuesday night. Mayor Ludlow reported that he had been informed by Mayor Clark of Redondo that there was a possibility of Mrs. McCormick being transferred to another district, and as she has done this work in this district for a number of years and is familiar with the circumstances of elderly people who are receiving pensions, it is hoped that she can be retained. Mayor Ludlow reported that nearly all cities in the Southbay district are urging that she be kept in this district.

HERE'S THE NEW SMART Ford Victoria

FORD V8

HERE is the climax of 1934 Ford car design: From its gracefully-slanted radiator grille to its smoothly-tapered rear, this new VICTORIA says S-T-Y-L-E in every air-streamed line. Its extra smartness of line, and brilliant enamel finish, will let you park it proudly beside cars costing five times as much—But this car's beauty is not just skin deep. Consider, for instance, the proved dependability and championship performance of the Ford V-type, 8 cylinder engine—Consider its economy. Although the Ford V-8 will outperform most high-priced cars, it is the most economical automobile that Ford has ever built. Consider too, the safety and strength of a one-piece, welded steel body and safety glass throughout. These features do not show in the lines of the beautiful new Victoria, but they show quickly enough from the driver's seat and in your pocketbook.
